

## Presentation 12 A Solution to Global Warming

- ✓The Rule of Three
- ✓Evaluating Evidence

### Warm Up

#### Group Discussion

1. Do you think global warming is a serious problem? Why or why not?
2. In your group, generate a list of possible solutions to the problem of global warming.

### Before You Watch...

#### 1. Key Expressions

alternative fuels      run out      fossil fuels      step in the right direction

#### 2. New Vocabulary

incentive      double      carbon dioxide      atmosphere      contribute  
generate      invest      crisis      conserve

### While You Watch...

1. What solution does Charles suggest? \_\_\_\_\_
2. What are the three points he makes to support this solution?  
1. \_\_\_\_\_ 2. \_\_\_\_\_ 3. \_\_\_\_\_
3. What is the evidence for each point?  
1. \_\_\_\_\_ 2. \_\_\_\_\_ 3. \_\_\_\_\_
4. What is the source of each piece of evidence?  
1. \_\_\_\_\_ 2. \_\_\_\_\_ 3. \_\_\_\_\_

### After You Watch...

1. The DVD segment begins in the middle of Charles' presentation. What do you think he talked about in the first half of the presentation?  
\_\_\_\_\_
2. Evaluate the evidence Charles uses to support his argument. Is it credible, accurate, and sufficient? Take notes and discuss in your group.  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

### Group Discussion Questions

1. Do you believe Charles' solution will work? Why or why not? Discuss in your group.
2. Return to the list of solutions generated in the warm up activity. Are any of your solutions better than the one Charles describes? Explain.
3. What can you do personally to help solve the problem of global warming? Make a list.
